# Delem

The new generation **DA-50T-series** offers easiest CNC programming based on the Delem graphical **touch screen** user interface.

The **DA-58T** is a state of the art complete 2D graphical control solution for synchronized press brakes.

Its 15" high resolution colour TFT, with industrial grade multi touch screen technology, gives access to the proven Delem user-interface. It enables direct navigation between product programming and actual production. Functions are directly located where needed, offering optimised ergonomics throughout the entire application.

Machine adjustment and test bends are reduced to a minimum with a quick and easy **program-to-production** work sequence. CNC programs are generated with a single touch. You are immediately ready to make the first part since all axes positions are automatically computed and the bend sequence has been **simulated** with machine and tools in real scale.

The DA-58T offers 2D programming including automatic bend sequence calculation and collision detection.

The **production mode** of the DA-58T helps the operator in graphically simulating the bend process of the product, guiding him during the press brake operation.

The standard machine control functions are Y1-Y2 and X axis. A second back gauge axis can be used as R or Z axis. Also crowning control is standard on board.

#### **DA-58T features:**

- 2D graphical touch screen programming
- 15" high resolution colour TFT
- Bend sequence calculation
- Crowning control
- Servo and frequency inverter control
- Advanced Y-axis control algorithms for closed-loop as well as open-loop valves.
- USB, peripheral interfacing

# **Specifications DA-58T**

# **Product configuration**

#### Standard

- Colour high brightness LCD display
- 15" TFT
- LED backlight
- 1024 x 768 pixels
- Industrial grade touch screen
- Storage capacity 1 GB
- USB flash memory drive
- Data backup / restore via USB
- Integrated valve amplifier
- Power-down memorisation

#### **Field options**

- Network connectivity
- TandemLink

# **Ordering information**

- DA-58T, CNC in robust housing
- DA-58T-P, CNC panel version

# **Technical specification**

#### General

- Multi touch industrial touch screen
- Instant Shut Off

#### Electrical / interfacing

- Power supply: 24V
- Opto-isolated digital I/O
- Integrated valve amplifier Y1, Y2
- Encoder inputs (single/diff.5V/12V)
- RS232 port
- Network interface
- USB port

#### Control

- Servo control
- Unipolar / frequency inverter control
- Pressure valve control
- Proportional valve control
- Crowning control
- Multiple digital function outputs
- Tandem operation (dual)

#### Mechanical

- Housing 405x388x122 mm
- Design, aluminium edge
- IP54

# **Programming**

- Alphanumerical product naming
- Real-scale product programming and visualisation
- Automatic bend sequence calculation
- Easy graphical bend sequence swap and move
- Hemmed products programming
- Radius programming (bumping)
- One page programming table
- Graphical product and tool selection
- Programmable material properties
- Programmable axis speed
- Free material programming
- Product & tool search filter
- Millimetres/Inches, kN/Ton selection
- Stock counter

### Tooling

- Tool library 30 punches / 60 dies
- Alphanumeric tool identification
- Free graphical tool programming
- Hemming tools
- Radius tools

# Computed

- Tooling safety zones
- Press force
- Bend allowance
- Crowning adjustment
- Developed length
- Bottoming force
- Hemming force
- Auto bumping calculation
- Bend allowance table
- Learned angle correction database

#### Miscellaneous

- 'Teach-in' on all axes
- Operator selectable dialogue languages
- Integrated help function
- Error messaging system
- Diagnostic program
- Remote Assistance option
- Machine time + stroke counter
- On board Analysis Tool
- Sequencer functionality (PLC)
- Safety PLC interfacing
